FAQ (FREQUENTLY ASKED QUESTIONS)

When was Indian Cybercrime Coordination Centre (I4C) formed?

Indian Cybercrime Coordination Centre (I4C) was officially inaugurated by Hon'ble Home Minister Shri Amit Shah on the 10th of January 2020, to combat Cybercrime in the country and strengthen the overall security apparatus to fight against Cybercrime.

What is the purpose of Indian Cybercrime Coordination Centre?

Indian Cybercrime Coordination Centre (I4C) focuses on tackling all the issues related with Cybercrime for all citizens, such as, improving coordination among Law Enforcement Agencies and other concerned stakeholders, driving change in India's overall capability

to tackle Cybercrime, and facilitating capacity development of Law Enforcement Agencies to better respond to Cybercrime.

What are computer-related offences?

As per Section 66, IT Act 2000, a computer-related offence has been committed when destruction, damage, disruption, denial, deletion, concealment, tampering, manipulation, stealing or alteration of information residing in a computer resource has happened due to the dishonest or fraudulent action of the accused.

What is meant by the term computer resource?

'Computer Resource' means any computer, computer system, computer network, data, computer database or software.

What is meant by the term Cyber Security?

'Cyber Security' means protecting information, equipment, devices, computer, computer resource, communication device and information stored therein from unauthorized access, use, disclosure, disruption, modification or destruction.

How do I report a Cybercrime complaint?

Cybercrime complaints can be reported on the website - https://cybercrime.gov.in/ of Indian Cybercrime Coordination Centre (I4C).

Complaints related to financial cyber frauds can be reported by calling the National Helpline number 1930, and the complaints must be later completed on the above website with additional information.

What are the Seven Verticals of I4C?

The Seven Verticals (Components) of I4C:

- National Cybercrime Threat Analytics Unit (NCTAU).
- National Cybercrime Reporting Portal (NCRP).
- National Cybercrime Ecosystem Management Unit (NCEMU).
- Joint Cybercrime Coordination Teams (JCCT).
- National Cyber Forensic Laboratory (NCFL).
- National Cybercrime Training Centre (NCTC).
- National Cybercrime Research and Innovation Centre (NCR&IC).

Which type of Cybercrime can I report on the portal?

There are two options for reporting Cybercrime on the portal:

Report Cybercrime related to Women/Child – Under this section, you can report complaints pertaining to content related to online Child Pornography (CP), Child Sexual Abuse Material (CSAM) or sexually explicit content such as Rape/Gang Rape (CP/RGR) content.

Report Other Cybercrime – Under this option, you can report complaints pertaining to Cybercrimes such as social media crimes, online financial frauds, ransomware, hacking, cryptocurrency crime, online cyber trafficking, etc.

What is the difference between the options of 'Report Anonymously' and 'Report and Track' for filing Cybercrime complaints ?

There are two options for filing a report on www.cybercrime.gov.in: (i) Report Crime related to Women/ Child and (ii) Report Other Cybercrimes. In case of "Report Crime related to Women/ Child", there are two ways of registering your complaint:

Report Anonymously - You can report crime related to online Child Pornography/ Rape or Gang Rape (CP/RGR) content anonymously. You do not need to provide any personal information. However, information related to the complaint should be accurate and complete for the police authorities to take necessary action.

Report and Track – Under this option, fields marked with a red asterisk (*) are mandatory. It is important that the police authorities receive accurate and complete information related to the complaint. Therefore, one should provide required information such as your name,

phone number, email address, details of the complaint and necessary information supporting the complaint.

What kind of information, should I provide to report complaint?

Initially when filing a complaint, register yourself using your name and valid Indian mobile number. You will receive a One Time Password (OTP) on your mobile number. Once successfully register your mobile number on the portal, you will be able to report the complaint.

You can use “Report Other Cybercrimes” option available on the portal to report other cybercrimes such as mobile crimes, online and social media crimes, online financial frauds, ransomware, hacking, cryptocurrency crimes and online cyber trafficking. You are required to register yourself using your name and valid Indian mobile number. You will receive a One Time Password (OTP) on your mobile number. Once successfully register your mobile number on the portal, you will be able to report the complaint by selecting appropriate category and sub-category.

How can I file the complaints about other Cybercrimes?

In case of other Cybercrimes, you can opt for “Report Other Cybercrimes” section. You are required to register yourself using your name and valid Indian mobile number. You will receive a One Time Password (OTP) on your mobile number. The OTP remains valid for 30 minutes only. Once you successfully register your mobile number on the portal, you will be able to report the

complaint by selecting appropriate category and sub-category of Cybercrime.

Under this section, fields marked with a red asterisk (*) are mandatory. It is important that the police authorities receive accurate and complete information related to the complaint. Therefore, you should provide required information such as your name, phone number, email address, details of the complaint and necessary information supporting the complaint.

What happens once I report a Cybercrime complaint?

The complaints reported on the portal shall be handled by the concerned State/UT police authorities based on your selection of State/ UT while reporting the complaint. In case of any further queries the concerned Police Station and/or the State/UT Nodal Officer for NCRP may be approached.

How can I check the status of my registered complaint on NCRP?

You will be able to check the status of your complaint if you have reported the complaint using “Report and Track” option or “Report Other Cybercrime” section available on the portal. The complainant will receive an acknowledgement number which can be used to track the progress of the complaint by logging on to the portal and clicking on “check status” option.

What is Citizen Financial Cyber Fraud Reporting and Management System (CFCFRMS)?

The Citizen Financial Cyber Fraud Reporting and Management System has been developed by the Indian Cybercrime Coordination Centre and is operated by respective State/UT which brings together Law Enforcement Agencies of States/UTS, Banks and Financial Intermediaries on a single platform to take immediate action on the complaints regarding financial cyber frauds received through helpline number 1930. The calls are being received by respective State/UT Police officials.

I4C, MHA is the platform provider. Complaints are lodged and handled by respective State/UT Law Enforcement Agencies.

Who manages the National Helpline number 1930 and the complaints reported through the help line number?

Respective State/UT Law Enforcement Agencies manage the Helpline number 1930, and officials designated by the respective State/UT Law Enforcement Agency receive calls from complainants and enter the required details on their behalf. Complaints are registered through the helpline number and also through the portal. In case of any further queries the concerned Police Station and/or the State/UT Nodal Officer for NCRP may be approached.

How can citizens register complaint on the Citizen Financial Cyber Fraud Reporting and Management System?

Citizens can register their complaints through the helpline number 1930. Complainants can call on the helpline number 1930 and provide few mandatory details like Name, Mobile Number, Address, Transaction details etc. and after receiving acknowledgement number the complainants are needed to make a formal complaint on the portal (https://cybercrime.gov.in/) within 24 hrs using the acknowledgement number received on SMS.

What is CSAM?

Child Sexually Abusive Material (CSAM) refers to material containing sexual image in any form, of a child who is abused or sexually exploited. Section 67 (B) of IT Act states that “it is punishable for publishing or transmitting of material depicting children in sexually explicit act, etc. in electronic form”.
